One winner will be selected in each age group based on the following judging criteria:

- Content
- Style
- Written Communication Skills
(Spelling, Grammar, Punctuation)

The selected 1st place winners will receive a cash prize during our virtual presentation on

DECEMBER 12TH, 2021

Please submit the details below with your full name, address, and phone number to:
education@spellingbeeofcanada.ca

PLEASE LIMIT YOUR WORD COUNT
PER AGE GROUP TO THE FOLLOWING:

AGES 6 - 7 150 WORDS

AGES 8 - 9 300 WORDS

AGES 10 - 12 450 WORDS

AGES 13 - 14 600 WORDS

PARTICIPANT NAME: _____

PARENT NAME: _____

ADDRESS: _____

CITY: _____ POSTAL CODE: _____

PHONE #: _____ EMAIL: _____

SPELLING BEE OF CANADA INVITES YOU TO NOMINATE YOUR "UNSUNG HERO"

UNSUNG HERO AWARD NOMINATION

NOMINATION DEADLINE: SEPTEMBER 15TH, 2021

Spelling Bee of Canada is inviting children ages 6-14
to submit a story about a special supporter in their life.

Please limit your word count to the following (per age group):

- AGES 6-7 **150 WORDS**
- AGES 10-12 **450 WORDS**
- AGES 8-9 **300 WORDS**
- AGES 13-14 **600 WORDS**

The selection committee will select 3 stories from each of the 4 age categories, primary (6-7), junior (8-9), intermediate (10-12), and senior (13-14) for prizes, with a special award to the top story in each category.

**Nominees will be selected based on
story content, style, grammar,
spelling, punctuation, flow,
and presentation**

**Prize winners will be recognized
during our virtual ceremony on:
DECEMBER 12TH, 2021**

Please email your
nomination details below to:

EDUCATION@SPELLINGBEEOFCANADA.CA

With your nominee's complete address and telephone number,
tell us why your nominee should be selected for the **Unsung Hero Award**.

In recognition of the tremendous support showered on me by my _____ at home, school, community, and everyday life.

I, _____ age _____,
a resident of _____ (city) _____ (phone #)

am proud to nominate _____
for the Annual Unsung Hero Presentation.

Parent Name: _____

WELCOME TO THE _____ CHAPTER SPELLING BEE

VOLUNTEERING OPPORTUNITIES

Parents, students, and all interested individuals are welcome to volunteer with us. Please complete a volunteer profile form to give to the chapter president or send to SBOC office via email or fax. Volunteer applications can be downloaded from the SBOC website or discussed with your chapter president.

THE COMPETITION

The first phase of the competition will be the chapter bees, followed by the Championship Final. If no details are outlined at registration, please contact your chapter president for the date and details of the regional competition and write in the space provided below.

Categories: _____

Date(s): _____

Location(s): _____

Time(s): _____

Competition Date: _____

Intermediate Category: _____ a. m./p. m. _____

The Word List is not allowed in the audience during competition. If the competition is online, then the Word List should not be present in the contestant's room. We request that members of the audience do not help the participants during the competition.

All participants should sign in one hour before start time or as indicated by their chapter president. Those not in their seat/online at the start time will not be eligible to participate.

Thank you for your participation. We consider any child or youth who studies the given lists of words and other words, and appears on stage/online to participate in the Spelling Bee Competition to be a WINNER! Everyone who participates will receive a certificate for their personal efforts.

GOOD LUCK!

AN INTRODUCTION

WHO ARE WE?

Spelling Bee of Canada (SBOC) is an educational organization that encourages youth, parents, teachers, and the community at large to participate in the education process.

WHAT DO WE DO?

The SBOC organizes annual family of schools and community spelling bees aimed at children and youth 6-14 years of age. The participants are placed into one of three categories: **Primary - ages 6 to 8, Junior - ages 9 to 11, and Intermediate - ages 12 to 14**, to vie for cash, trophies, and prizes. Students aged 15+ are encouraged to volunteer and become mentors to participants in their chapter.

WHY DO WE EXIST?

The Spelling Bee of Canada was established in response to a need within the community for a stimulating educational programme outside the regular school curriculum which would focus specifically on English language basics. The SBOC's programmes are designed to contribute to the development of our youth's self esteem by creating pride in academic achievement and, in the process, help to build a solid foundation for their future education and careers.

WHERE DO WE OPERATE?

The Spelling Bee of Canada was established in the Greater Toronto Area in 1987 and led to the development of an Ontario Spelling Bee. SBOC is now unifying all the provinces for a National Spelling Bee. To date, over 75,000 children have participated in the programme.

HOW DO WE OPERATE?

The SBOC is a registered charity (#890470198RR0001). The SBOC depends on local businesses, organizations, and individuals to contribute time, materials, services and/or funds.

VALUES

MISSION

- Enrich the learning experience of our children and youth through growth in English vocabulary, public speaking; and promote self-confidence.
- Engage children and youth, parents, schools, businesses, religious institutions, and the community at large in a yearly education process.

GOALS

Our programme goals are to:

- Provide children and youth between the ages of 6 and 14 with the opportunity to participate in a positive spelling competition to improve their English language skills, spelling capabilities, comprehension, and communication skills.
- Develop self-esteem, confidence, and interpersonal skills of students by exposing them to positive role models, tutors, and peer supports throughout the course of preparation for the bee, competitions, and year-round follow-up activities.
- Promote community-based partnerships by engaging members of various communities in advancing the benefits of the Spelling Bee, getting children and youth involved, and promoting the importance of education, especially reading, writing, comprehension, and spelling.
- Build a network of young people who will act as peer mentors for other students.
- Play a key role in supporting the academic growth of students, especially in the areas of reading comprehension and spelling, through collaborative partnerships with libraries, religious institutions, individual schools, and community-based educational programs.

MANUAL RULES AND REGULATIONS

1. An official will read rules 1 to 15 aloud before the beginning of each contest and, when the number of competitors has been reduced to two, the official will read rules 16 to 17 unless those present agree unanimously to waive the reading of the rules.

2. The Pronouncer, judge(s) and other officials will be in complete charge of the contest. Any questions or protests about the spelling(s) of a word or the running of the contests must be referred to the officials immediately (before the beginning of the next round). Their decisions will be final in all matters.

NO PROTEST WILL BE ENTERTAINED AFTER THE CONTEST HAS ENDED.

3. For each contest, there will be an Arbiter whose duty is to hear any protests as they arise and decide on them before the contest continues. The Arbiter's decision shall be final. If possible, each contest should be videotaped or recorded by bee officials so that any point of contention may be reviewed.

4. This competition is open to all contestants ages 6-8 (Primary), 9-11 (Junior), and 12-14 (Intermediate).

5. In competition, all words will be chosen from official lists compiled from the Oxford Dictionary and provided by Spelling Bee officials. The official list is the final spelling authority for the competition.

6. In-Person Competition: Preliminary rounds will be held in each chapter, using official word lists and the listed rules and regulations. Online Competition: Preliminary rounds will be held in each region over Zoom, using official word lists and the listed rules and regulations.

7. The competition will be oral; contestants must spell the words orally and the use of pens and/or pencils and paper will not be allowed.

8. Contestants may pronounce their words before spelling them, after spelling them, or not at all.

9. For all words with capitals, the speller must indicate the capital. For example, if the given word is "Ottawa" the speller must say "Capital O t-t-a-w-a."

10. Once a contestant has begun to spell a word, they may not ask for a word to be re-pronounced, defined, or used in a sentence. Also, having started to spell a word, a contestant will not be given an opportunity to change letters already pronounced. A speller may retrace provided that letters and their sequence are not changed in retracing. **Spellers must make it clear that they are going to retrace before they start retracing. (i.e., by asking, "May I start again?").** Spellers are required to indicate capitals. Apostrophes and other punctuation are not required.

11. If a word taken from the word list is unclear to a contestant, they may ask for the word to be re-pronounced, but will not be given a definition or a sentence, unless the word is a homophone in which case the Pronouncer must give the definition and an example sentence without being asked. The contestant must give the spelling of the word as defined, not a homophone of the word.

12. If a word has more than one acceptable spelling, any spelling listed in the word list, tie-breaker list, or the Oxford Dictionary for that word will be accepted.

13. Officials may disqualify any contestant who ignores a request to start spelling their word within a reasonable length of time. Also, A SPELLER WHOSE SPELLING OF A WORD IS NOT AUDIBLE TO THE OFFICIALS MAY HAVE THEIR SPELLING RULED INCORRECT.

14. When a speller fails to spell a word correctly, the next contestant, in the same round, will be given the same word to spell.

Note: Rule 15 is for the tie-breaker rounds only. (Please note that during the tie-breaker rounds, a new list of words is introduced. These words are not listed in the Official Intermediate Study List, 2021 Edition). The table officials will announce, “We are now switching to the tiebreaker round.”

15. If a tiebreaker word is unclear to a contestant, it is the responsibility of the contestant to request that the word be re-pronounced, defined, and/or used in a sentence. The Pronouncer will grant the request(s) until the officials agree that the word has been made reasonably clear to the contestant. If a word is a homophone, the Pronouncer must give the definition and an example sentence without being asked.

16. The elimination procedure changes when the number of contestants is reduced to two. At this point, when one contestant misspells a word, the other contestant will be given the opportunity to spell the same word.

17. If the second contestant spells the word correctly, plus the next word on the Pronouncer’s list, then they will be declared champion. If the contestant misspells the word on the Pronouncer’s list, then both spellers continue in the contest.

If both contestants misspell the same word, then both continue in the contest.

ONLINE RULES AND REGULATIONS

Please **carefully read** all the online-specific rules and guidelines (lettered A to O) for the SBOC online competition. These online rules are in addition to the manual rules in this SBOC study guide (word list). For online competitions, we **may** opt to have 2 study guide-based rounds before we switch to the tie-breaker round.

If you have any issues or concerns regarding accessibility or accommodation, please notify SBOC via email at least 2 weeks in advance of the competition.

At the beginning of the competition, the Judge will read the Pledge of Honour, and contestants will be asked to verbally affirm that they will compete in a fair and honest manner and not lie, cheat, or commit other offenses that would make the competition unfair for others.

You will receive a warning upon violation of 1 or more of the following online rules. Contestants are subject to disqualification upon receiving 3 violations.

TECHNICAL REQUIREMENTS

Please ensure you meet the technology requirements found on [Zoom's support page](#) to participate in the online competition. Refer to our [technical guide](#) or general outline below:

- A.** A desktop, laptop, or mobile device with a webcam and microphone or wired headphones where the Zoom app or web interface can be utilized.
- B.** A webcam video quality depicting the distinct and discernible features of the contestant and a microphone audio quality that produces clear and crisp sound.
- C.** A strong internet connection. Run a free internet speed test here: [click this link](#).
(**Recommended** 50Mbps Down, 10Mbps Up | **Minimum** 3Mbps Down, 0.3Mbps Up)

LIVESTREAMING TECHNOLOGY

- D.** The video conferencing platform [Zoom](#) will be used to host the online spelling bees. Parents/contestants must sign up using the Zoom registration links distributed to you in order to participate in the online competition.
- E.** Contestants must be punctual -- no contestants will be allowed to join the Zoom session after the event begins. Contestants are reminded that they are representing SBOC, their chapter, and their school in a public event, and should dress accordingly.
- F.** By registering for the Spelling Bee, you acknowledge that competitions and other SBOC events in which you participate may be recorded and broadcast, and consent to the use of your image for this purpose.

SETUP, LOCATION, & SURROUNDINGS

G. Contestants should set up in a space to participate from that is private, well-lit, indoors; and try to avoid open spaces. Please make others aware that you cannot be disturbed and ensure as little background noise and distractions as possible.

H. Contestants must be visible to the officials from the waist up including both hands at their sides. Contestants must be at least 1 meter (or arm's length) from the device screen and maintain eye focus on the camera while attempting to spell. They should ensure they are in a space where they are able to fulfill these requests.

I. All items that contain words should be removed from the room or covered up such that the words are not visible to the contestant. Please cover up items containing words with a non-transparent piece of cloth, blank board; use non-transparent tape on objects that cannot be removed

J. Contestants should be alone in the room. For the Intermediate category (ages 6-8), a parent may be present to help the child set up for their turn. During the contestant's turn, the parent may be silently seated behind their child.

K. Parents or audience members are not permitted to help contestants during their turn, nor are contestants allowed to use any spelling aids, or else the contestant will be disqualified at the discretion of the officials. Possible reasons for disqualification include voices in the background, reading off of materials, use of additional devices, camera turning off, and looking off-camera while spelling.

TECHNOLOGICAL COMPETENCY

L. Contestants should ensure that there is proper internet quality throughout the competition such that there are no lags and glitches in the visual and audio recording being captured. Contestants are encouraged to test-run their streaming quality on Zoom (for free) prior to the date of the competition.

M. At no point can the contestant's camera or audio be inaccessible to the officials during the competition. Video or audio errors may be considered reasonable cause for disqualification. Certain technological errors may be forgiven on a case-by-case basis at the discretion of the Arbiter, but repeated issues may result in disqualification. Although we try to support contestants' participation to the best of our ability, we unfortunately cannot wait on all of the technical issues that may arise to be resolved.

N. Wired headphones may be used if needed, but wireless headphones are not permitted. Contestants should ensure that their device is plugged in during the competition.

O. A spelling that is inaudible to the officials may be ruled incorrect. Particularly with Zoom, contestants should remember to speak slowly, loudly, and clearly. An external microphone can also be used to improve audio. At the discretion of the officials, a contestant may be given the opportunity to repeat a spelling that was interrupted by audio difficulties, but these additional attempts are limited.

SPELLING GUIDELINES

1. Final consonant doubled

(a) A word ending in a single consonant preceded by a single vowel generally doubles the final consonant before a suffix beginning with a vowel, if it is a word of one syllable or if the accent falls on the final syllable of the original word: plan, planning, planned; refer, referring, referred; bid, bidding, bidden; acquit, acquitting, acquitted; commit, committing, committed. Exceptions: devil, devilish; benefit, benefited.

(b) When a word ends in L, the final consonant is usually doubled before a suffix: cancel, cancellation.

NOTE: Words ending in a single consonant preceded by a single vowel do not double the final consonant before a suffix beginning with a vowel if a shift of accent results from addition of the suffix: prefer, preference; confer, conference.

2. Final E

(a) Words ending in a silent **E** usually drop the **E** before a suffix beginning with a vowel; dine, dining; trouble, troubling, subdue, subduing; desire, desirable.

Exceptions: dyeing, singeing (to distinguish from dying and singing), shoeing, canoeing

(b) Words ending in silent **E** generally retain **E** before a suffix beginning with a consonant: complete, completeness; enforce, enforcement; vague, vagueness; manage, management, engage, engagement; use, useful; care, careful.

Exceptions: argument, truly, ninth

3. Final Y

(a) Words ending in **Y** preceded by a consonant change **Y** to **I** before a suffix: heavy, heaviest; lively, livelihood; salary, salaried; necessary, necessarily.

(b) Words ending in **Y** preceded by a vowel generally retain **Y** before a suffix: annoy, annoyance, annoying; journey, journeyed; gay, gayest.

4. Final C

Words ending in **C** with the hard sound of **K** – add **K** before **I**, **Y** or **E**; picnic, picnicking; panic, panicky; traffic, trafficking; mimic, mimicked.

5. Final N

Words ending in **N** retain the **N** before the suffix – ness; Sudden, suddenness; clean, cleanness; keen, keenness.

6. Words with IE and EI

An easy way to remember the rule for **IE** and **EI** is to learn the following rhyme:

I before E, Except after C, Or when sounded like A

As in neighbour and weigh. e.g. believe, reprieve, receive

7. Words with ABLE and IBLE

In writing the adjectival form of certain words there are no definite rules but the following guides may be helpful. Words ending in –ation, usually take the suffix **ABLE**; duration,

durable; adaptation, adaptable; words ending in –sion or –tion usually take the suffix **IBLE**; division, divisible; permission, permissible; destruction, destructible.

8. Words prefixed by **DIS** or **MIS**

When the prefix **DIS** or **MIS** is added, no change is made in the original word. A double **S** occurs only where the original word begins with **S**: disappear, misdirect, dissatisfied, disrobe, misbelieve, misspelled.

9. Plurals

(a) When a noun ends in **Y** preceded by a consonant, the plural is formed by changing **Y** to **I** and adding **ES** (to the singular): variety, varieties; monopoly, monopolies.

(b) When a noun ends in **Y** preceded by a vowel, the plural is formed by adding **S** to the singular: holiday, holidays; journey, journeys; attorney, attorneys.

(c) When a noun ends in **O**, the plural in most cases is formed by adding **S** to the singular: piano, pianos; ratio, ratios. Sometimes the plural is formed by adding **ES** to the singular: potato, potatoes; veto, vetoes.

(d) When a noun ends in **F** or **FE** the plural in most cases is formed by adding **S** to the singular: sheriff, sheriffs; plaintiff, plaintiffs; staff, staffs; safe, safes. Sometimes the plural is formed by changing **F** or **FE** to **V** and adding **ES**: knife, knives; shelf, shelves.

(e) The plural is formed in some nouns by a vowel change instead of by the addition of a suffix: goose, geese; man, men; mouse, mice; foot, feet.

(f) Some words retain their original Greek or Latin plural forms. The singular and plural forms are given here: analysis, analyses; basis, bases; phenomenon, phenomena; parenthesis, parentheses; hypothesis, hypotheses.

(g) Some nouns are rarely if ever used in the singular: annals, athletics, clothes, nuptials, scissors.

(h) In compound nouns the plural is usually added to the last member, but sometimes the first member: passerby, passersby; son-in-law, sons-in-law; coat-of-arms, coats of arms; court martial, courts martial.

10. Alternative Spelling

In competition, spellings that are thought to be “American” will be accepted so long as they are recognized in the Oxford Dictionary.

A NOTE REGARDING THE WORD LIST

WORD SELECTION

The Spelling Bee of Canada’s word selection committee was responsible for the **Intermediate** category word list. The spelling of each word was verified by reference to the Oxford Dictionary.

PARTICIPANTS

For each word, this word list provides alternative spelling(s), pronunciation(s), the part of speech, one or more definitions and a sentence to show the use of the word. In competition, however, contestants will be tested only on the spelling and need to know only one form; the additional information is given only to help the contestant learn the word.

ABBREVIATIONS

adv. adverb

v. verb

n. noun

prep. Preposition

adj. adjective

interj. Interjection

	WORD	PRONUNCIATION	PART OF SPEECH	DEFINITION / EXAMPLE
1.	acculturation	uh-kuhl-chuh- ray -shuhn	n.	Retention of your own culture within a minority community in a country while also adapting some aspect of the majority culture. <i>In their sociology class, the students studied the difference between assimilation and acculturation.</i>
2.	acephalous	ay- seh -fuh-luhs ay- keh -fuh-luhs	adj.	Having no leader or chief. <i>In anthropology studies, the students learned that most foraging or wood-gatherer societies were acephalous.</i>
3.	adespota	uh- des -puh-tuh	n.	Anonymous literary works, especially ancient Greek poetry. <i>Researchers studied adespota to gain knowledge from much earlier times.</i>
4.	Agnatha	ag- nay -thuh	n.	A group of primitive, jawless vertebrates. <i>Jawless fish like lampreys and hagfish, members of the Agnatha class, also lack fins and stomachs.</i>
5.	agnosia	ag- noh -see-uh	n.	Inability to process sensory information, usually as a result of brain damage. <i>The three main types of agnosia are visual, auditory, and tactile.</i>
6.	ailanthery ailantery	ay- lan -thuh-ree	n.	A grove of ailanthus trees. <i>The ailanthery was intended to provide food for silkworms.</i>
7.	alloantigen	a-loh- an -tih-jehn	n.	An antigen present in some but not all individuals of the same species, as those in different blood types. <i>Researchers discovered that an alloantigen stimulates the immune system of the host against foreign antigens.</i>
8.	alveolus	al-vee- oh -luhs al- vee -uh-luhs	n.	Any of the millions of tiny air sacs of the lungs. <i>Each alveolus is wrapped in a fine mesh of capillaries.</i>

9.	amice	a-mihs	n.	A white linen cloth worn on the neck and shoulders by a priest. <i>The word <u>amice</u> comes from a Latin word meaning wrapped around.</i>
10.	amphibole	am-fih-bohl	n.	A group of minerals forming prism or needle-like crystals. <i>The contractor used <u>amphibole</u> for paving stones and as a veneer on buildings.</i>
11.	anachronism	uh-nak-kruhn-izm	n.	A clearly old-fashioned thing. <i>In today's computer world, a floppy disk is an <u>anachronism</u>.</i>
12.	anaerobic	an-uh-roh-bihk	adj.	Relating to or requiring an absence of free oxygen. <i>Below the depth of oxygen penetration, life is restricted to <u>anaerobic</u> bacteria.</i>
13.	analgesic	an-uhl-jee-zihk an-uhl-jee-sihk	adj.	Referring to a pain-relieving drug. <i>The patient's sprained wrist was treated with a sling and <u>analgesic</u> medication.</i>
14.	anarchy	an-uhr-kee	n.	A state of disorder due to absence or non-recognition of authority. <i>When you have people losing trust in the system, it leads to <u>anarchy</u>.</i>
15.	annexation	an-uhk-say-shuhn an-ehk-say-shuhn	n.	A formal act whereby a country, state or city proclaims its sovereignty over territory hitherto outside its domain. <i>The area of the city was greatly increased by its <u>annexation</u> of the suburbs.</i>
16.	annuity	uh-nyoo-ih-tee	n.	A fixed sum of money paid to someone each year, usually for the rest of one's life. <i>The pensioner was happy to have an <u>annuity</u> which paid him a guaranteed income for the rest of his life.</i>
17.	anonymized anonymised	uh-nawn-ih-meyezd	v.	Referring to identifying details having been removed. <i>The computer expert <u>anonymized</u> the data so that the original source would not be revealed.</i>

18.	antelucan antilucan	an-tih- loo -kuhn	adj.	Occurring in the hours before dawn. <i>The tired doctor returned from his house call in the gloomy antelucan hour.</i>
19.	anthemion	an- thee -mee-uhn	n.	An ornamental design of alternating motifs resembling clusters of narrow leaves. <i>The decorator stencilled an anthemion motif on a small section of the wall, so the homeowner could see it and decide whether or not to continue.</i>
20.	anthropogenic	an-thruh-puh- jehn -ihk	adj.	Referring to environmental pollution resulting from human activity. <i>Excessive greenhouse emissions are anthropogenic.</i>
21.	anthropology	an-thruh- pawl -uh-jee	n.	The study of human societies and cultures. <i>Ethnography is a research approach developed in anthropology to study small-group culture.</i>
22.	anthropomorphism	an-thruh-puh- mohr -fiz-uhm	n.	The attribution of human characteristics or behaviour to a god, animal, or object. <i>Pet owners are inclined towards anthropomorphism.</i>
23.	antimetabolite	an-tih-mih- tab -uh-leyet	n.	A substance that interferes with the normal metabolic processes within cells. <i>Gout is treated with an antimetabolite.</i>
24.	anxiogenic	ank-see-uh- jen -ihk	adj.	Giving rise to anxiety. <i>Caffeine is an anxiogenic agent as it can cause a person to feel nervous.</i>
25.	apodosis	uh- paw -duh-sihs	n.	The main clause of a conditional sentence. <i>The apodosis is often contrasted with the protasis.</i>
26.	apolitical	ay-puh- lit -ih-kuhl	adj.	Not interested or involved in politics. <i>Our neighbour is an apolitical type who doesn't usually vote.</i>

27.	aposematic	a-poh-sih- mat -ihk	adj.	Referring to markings or colourings used to repel or warn predators. <i>The bright colours of poison arrow frogs and some butterflies are <u>aposematic</u> protection.</i>
28.	apportioned	uh- pohr -shuhnd	v.	Divided up and shared. <i>They met with the estate lawyer to find out how their father's money was <u>apportioned</u> in his will.</i>
29.	arachnophobia	uh-rak-nuh- foh -bee-uh	n.	Extreme or irrational fear of spiders. <i>Because of her <u>arachnophobia</u>, she is frightened whenever she sees a spider.</i>
30.	arenaceous	a-rih- nay -shuhs	adj.	Referring to plants growing in sand. <i>Peanuts are <u>arenaceous</u> plants, growing best in sandy soil.</i>
31.	argillaceous	ahr-jih- lay -shuhs	adj.	Referring to rocks or sediment consisting of or containing clay. <i>Shale and slate are <u>argillaceous</u> rocks.</i>
32.	arrogate	a-roh-gayt	v.	To take or claim something without justification. <i>It is hard to watch the attempts of a world leader trying to <u>arrogate</u> powers that aren't his.</i>
33.	artesian	ahr- tee -zee-uhn ahr- tee -zhuhn	adj.	Referring to the upward movement of water under natural pressure. <i>An <u>artesian</u> well is a water well that does not require a pump to bring water to the surface.</i>
34.	assailant	uh- say -luhnt	n.	A person who physically attacks another. <i>The victim was unable to describe the <u>assailant</u> because the mugging was over in seconds.</i>
35.	atrabilious	a-truh- bih -lee-uhs	adj.	Melancholy or irritable. <i>Peers usually avoid a person with an <u>atrabilious</u> temperament.</i>
36.	attenuated	uh- tehn -yoo-ay-tihd	v.	Reduced in force, effect, or value. <i>Earplugs <u>attenuated</u> the loud sounds of the machinery.</i>

37.	aubade	oh- bahd	n.	A poem or piece of music appropriate to the dawn or early morning. <i>An aubade is the opposite of a serenade, which is intended for performance in the evening.</i>
38.	auspicious	aw- spih -shuhs	adj.	Being a sign of future success. <i>Some people think that the start of the year is an auspicious time to make resolutions.</i>
39.	authoritative	aw- thohr -ih-tay-tihv	adj.	Commanding and self-confident; likely to be respected and obeyed. <i>The calm, authoritative voice restored order in the chaotic classroom.</i>
40.	auxiliary	awg- zih -lih-uh-ree	adj.	Providing additional help and support. <i>The homeowner bought a generator as an auxiliary power source in case the electricity went out.</i>
41.	barrique	buh- reek ba -rihk	n.	A wine barrel. <i>The vintner aged the wine for two years in an oak barrique.</i>
42.	beachcomber	bee ch-koh-muhr	n.	A person who walks along a beach looking for interesting items. <i>The beachcomber collected driftwood to make unique furniture.</i>
43.	beguine biguine	bih- geen	n.	A dance of Caribbean origin, similar to the foxtrot. <i>At night, party-goers dance the beguine.</i>
44.	biogerontology	beye-oh-jeh-ruhn- tawl -uh-jee	n.	A branch of science concerned with the biological processes involved in aging. <i>The interdisciplinary research of biogerontology studies the causes, effects, and mechanisms of aging.</i>
45.	biometry	beye- aw -mih-tree	n.	The application of statistical analysis to biological data. <i>Mathematically trained, the biologist was interested in both systemics and biometry.</i>
46.	bistoury	bi hs-teu-ree	n.	A surgical knife. <i>A bistoury can be used for surgery, for podiatry, and for arts and crafts.</i>

47.	bocconcini	bawk-awn- chee -nee	n.	Small balls of mozzarella cheese. <i>Traditional Caprese salad has fresh <u>bocconcini</u> cheese, ripe tomatoes, and basil.</i>
48.	bokeh	boh -kay	n.	The visual quality of the out-of-focus areas of a photographic image. <i>The photographer used <u>bokeh</u> for the background to make the subject in the foreground stand out.</i>
49.	borborygmus	bawr-buh- rig -muhs	n.	A rumbling or gurgling noise made by the movement of fluid and gas in the intestines. <i>Drinking water can help stop <u>borborygmus</u>.</i>
50.	borescope	bawr -skohp	n.	An instrument used to inspect the inside of a structure through a small hole. <i>A <u>borescope</u> inspection of the engine showed no visible damage.</i>
51.	cacophony	kuh- kaw -fuh-nee	n.	A harsh discordant mixture of sounds. <i>Birds form a group and create a <u>cacophony</u> of sound to ward off attacks.</i>
52.	calamansi kalamansi	kal-uh- man -see	n.	A small hybrid fruit-bearing plant. <i>While <u>calamansi</u> is native to the Philippines, it is grown in Canada as a tropical houseplant.</i>
53.	calcicole	kal -sih-kohl	n.	A plant that grows best in calcium-rich soil. <i>The honeysuckle vine draped over the fence was a beautiful sample of a <u>calcicole</u>.</i>
54.	calciferol	kal- sih -fuh-rawl	n.	One of the D vitamins. <i>Vitamin D, also called <u>calciferol</u>, is referred to as the sunshine vitamin because the body can manufacture this vitamin from sunlight absorbed by your skin.</i>
55.	calliblephary	kal-ih- bleh -fuh-ree	n.	Eyeshadow. <i>It is much easier to say “eyeshadow” than to pronounce the original name, <u>calliblephary</u>, for colouring for eyelids.</i>

56.	calligram	kal-ih-gram	n.	A picture made of words; a shaped poem. <i>In Alice in Wonderland, 'The Mouse's Tale' is a fun calligram because it is written to look like a mouse's tail curling across the page.</i>
57.	calque	kalk	n.	The borrowing of a word or phrase from another language and literally translated and then used in another way. <i>An 'Adam's apple' is a calque, or loan translation, of the French 'pomme d'Adam'.</i>
58.	canzonetta	kan-zuh- neh -tuh kant-suh- neh -tuh	n.	A short, light vocal piece of music. <i>The canzonetta is a style of vocal music that flourished in the late 16th and early 17th centuries.</i>
59.	carcinogenic	kahr-sih-noh- jehn -ihk	adj.	Having the potential to cause cancer. <i>Because asbestos is carcinogenic, workers removing it wear protective clothing.</i>
60.	categorical	kat-uh- goh -rih-kuhl	adj.	Unambiguously explicit and direct. <i>The doctor said it was a categorical truth that masks help control the spread of COVID-19.</i>
61.	centenarian	sehn-tih- nair -ee-uhn	n.	A person who is a hundred or more years old. <i>The senior home arranged a lovely birthday party for the centenarian.</i>
62.	chappal [H: chapel]	cha -puhl chuhp -puhl	n.	A slipper. <i>A chappal is similar to a sandal.</i>
63.	charivari	shah-rih- vah -ree	n.	A series of discordant noises. <i>He played a charivari on the piano to express his anger.</i>
64.	charmeuse	shahr- muhz	n.	A soft, smooth silky dress fabric. <i>With its drape, charmeuse works well for blouses, scarves, and lingerie.</i>
65.	chauvinistic	shoh-vih- nihs -tihk	adj.	Displaying prejudiced support for one's own cause, group, or sex. <i>We all need to combat stereotypes and chauvinistic attitudes.</i>

66.	chelicerae	kuh- lih -suh-ree	n.	The pincer-like claws of some crustaceans or arachnids. <i>Ticks have modified chelicerae for piercing.</i>
67.	chemophobia	kee-moh- foh -bee-uh	n.	A fear of chemicals, especially as used in artificial food products. <i>To understand chemophobia, we must be aware that scientists and the general public see risks differently.</i>
68.	Cheviot	cheh -vih-uht chee -vih-uht	n.	A large sheep of a breed with short, thick wool. <i>The wool of a Cheviot is known for its durability.</i>
69.	chevrotain	shev -ruh-tayn	n.	A small deerlike mammal with tusks. <i>A chevrotain, a shy, nocturnal vegetarian, is the smallest hoofed mammal in the world.</i>
70.	chiasmus	keye- az -muhs kih- az -muhs	n.	A literary device in which words or concepts are repeated in reverse order. <i>A simple way to add emphasis is to use a chiasmus, such as ‘Never let a fool kiss you or a kiss fool you.’</i>
71.	chimenea chiminea	chih-mih- nay -uh chih-mih- nee -uh	n.	A free-standing clay fireplace or oven that has a bulbous, hollow body connected to a narrow smoke vent. <i>The landscaper suggested adding a chimenea to their small garden for heat on cool evenings.</i>
72.	chirography	keye- rawg -ruh-fee	n.	Handwriting or penmanship. <i>The lady used chirography to create beautiful thank-you notes.</i>
73.	chlorofluorocarbons	klohr-oh-fleur-oh- kahr -buhns	n.	Non-toxic, non-flammable chemicals. <i>The manufacturers of aerosol sprays, solvents, and refrigerants used chlorofluorocarbons before we became aware of the danger they posed to the ozone layer.</i>

74.	chloroplast	klohr -uh-plast klawr -uh-plast	n.	A structure in plant cells which contains chlorophyll and in which photosynthesis takes place. <i>The chloroplast in a plant allows it to capture the energy of the sun in energy-rich molecules.</i>
75.	chough [H: chuff]	chuhf	n.	A Eurasian and North African bird of the crow family. <i>While its black plumage identifies it as a crow, the chough has a red bill and legs unlike any other member of the crow family.</i>
76.	clementine	klem -uhn-teen klem -uhn-teyen	n.	A tangerine of a deep orange-red North African variety. <i>A clementine is a citrus fruit.</i>
77.	coign [H: coin]	koyn	n.	A projecting corner or angle of a wall. <i>The red granite coign of each corner was a beautiful contrast to the grey walls.</i>
78.	compartmentalize compartmentalise	kawm-pahrt- mehn -tuh-leyez	v.	To divide into separate sections or categories. <i>The psychologist said the ability to compartmentalize is a defense mechanism or coping strategy.</i>
79.	conchology	kawn- kaw -luh-jee	n.	The scientific study of shells. <i>The director of the Shell Museum wrote several books on conchology.</i>
80.	conodont	koh -nuh-dawnt	n.	An extinct fossil marine animal of the Cambrian to Triassic periods. <i>The conodont resembled a modern-day eel.</i>
81.	consanguinity	kawn-san- gwih - nih-tee	n.	The fact of being descended from the same ancestor. <i>Both a social and genetic concept, their consanguinity meant that the cousins had a high chance of inheriting the same blood disorder their grandfather had.</i>
82.	conspicuous	kuhn- spih -kyoo- uhs	adj.	Attracting notice or attention. <i>The shy clown felt conspicuous in his bright costume.</i>

83.	controversial	kawn-truh- vuhr -shuhl	adj.	Giving rise or likely to give rise to controversy or public disagreement. <i>At the beginning of the COVID-19 pandemic, the issue of wearing masks was <u>controversial</u>.</i>
84.	conversion	kuhn- vuhr -zhuhn	n.	The process of changing, or causing something to change, from one form to another. <i>One farm is about to achieve organic status, and another is in the process of <u>conversion</u>.</i>
85.	coopetition	koh-awp-uh- tih -shuhn	n.	Collaboration between business competitors, in the hope of mutually beneficial results. <i>The market analyst wrote about the concept of <u>coopetition</u>.</i>
86.	coronach	kaw -ruh-nuhk kaw -ruh-nukh	n.	A funeral song of Scottish or Irish origin. <i>The bagpiper played a sombre <u>coronach</u>.</i>
87.	coulrophobia	kohl-ruh- foh -bee-uh kawl-ruh- foh -bee-uh	n.	Extreme or irrational fear of clowns. <i>Sufferers of <u>coulrophobia</u> agree that the heavy makeup, big nose, and weird hair colour are all fear-inducing.</i>
88.	cranium	kray -nee-uhm	n.	The skull, especially the part enclosing the brain. <i>The <u>cranium</u> supports the structure of the face and forms a protective cavity for the brain.</i>
89.	criteria	kreye- teer -ee-uh	n.	Principles or standards by which something may be judged. <i>A green label indicates the product has met certain environmental <u>criteria</u>.</i>
90.	curtilage	kuhr -tih-lij	n.	An area of land attached to a house and forming one enclosure with it. <i>When it comes to property, <u>curtilage</u> is an important legal concept.</i>
91.	dataveillance	day-tuh- vay -luhns	n.	The practice of monitoring digital data relating to personal details or online activities. <i>Mass <u>dataveillance</u> threatens us with invasion of privacy.</i>

92.	deaccession	dee-ak- seh -shuhn	v.	To officially remove an item from a library, museum, or art gallery to sell it. <i>The museum will deaccession this painting to buy other works.</i>
93.	debriefing	dee- bree -fihng	n.	A meeting to discuss a completed undertaking. <i>The purpose of the debriefing was to encourage reflection and build improvement into future plans.</i>
94.	decumbent	dih- kuhm -buhnt	adj.	Lying flat; horizontal. <i>In botany, a decumbent plant lies along the ground with the extremity curving upwards.</i>
95.	defiant	dih- feye -uhnt	adj.	Uncooperative or non-compliant. <i>The mood of the protestors was defiant.</i>
96.	delicatesse	deh-lih-kuh- tehs	n.	The quality of being delicate or tactful. <i>The grandmother's delicatesse endeared her to many.</i>
97.	demantoid	dih- man -toyd	n.	A lustrous green gemstone. <i>A demantoid is a member of the garnet family.</i>
98.	demotic	dih- mawt -ihk	adj.	Relating to the kind of language used by ordinary people. <i>The author wrote his novel in a vivid demotic style.</i>
99.	desperado	dehs-puh- rah -doh	n.	A desperate or reckless person, especially a criminal. <i>The historical novel series featuring a daring desperado has given way to a new series of Western movies.</i>
100	detriment	deh -trih-muhnt	n.	A cause of harm or damage. <i>The excuse-making in the meeting was a detriment to productive discussion.</i>
101	dhaba	dah -buh dha -bah	n.	A roadside food stall. <i>For mouth-watering rotis, the dhaba by the college was highly recommended.</i>

102	diaeresis dieresis	deye- uh -rih-sihs deye- eh -rih-sihs	n.	The two dots placed over a vowel to indicate that it is sounded separately, such as in the surname Brontë. <i>The <u>diaeresis</u> is seldom seen nowadays, as many editors no longer insist on its use.</i>
103	diastema	deye-uh- stee -muh deye- as -tihm-uh	n.	A gap between a person's two front teeth. <i>Dentists use the word <u>diastema</u> to describe the gap between two teeth.</i>
104	didgeridoo didjeridu	dij-uh-ree- doo	n.	An Australian Aboriginal wind instrument. <i>A <u>didgeridoo</u>, shaped like a long wooden tube, produces a deep, resonant sound when blown.</i>
105	dilettante	dihl-ih- tan -tay dihl-ih- tan -tee dihl-ih- tawnt	n.	A person who cultivates an area of interest, such as the arts, without real commitment or knowledge. <i>Self-discipline separates the true student from the <u>dilettante</u>.</i>
106	diminuendo	dih-mih-nyoo- ehn -doh	n.	A decrease in loudness in a piece of music. <i>The music swelled to a crescendo, then dissipated with a <u>diminuendo</u>.</i>
107	diminution	dih-mih- nyoo -shuhn	n.	A reduction in size, extent or importance of something. <i>The second wave indicated the pandemic showed no signs of <u>diminution</u>.</i>
108	disencumber	dihs-ihn- kuhm -buhr	v.	To free from a burden. <i>A day at the spa helped the harried executive <u>disencumber</u> herself of the job's frustrations.</i>
109	disingenuous	dihs-ihn- jehn -yoo-uhs	adj.	Not candid or sincere. <i>Because the journalist pretended to know less than he admitted, he was described as <u>disingenuous</u> and untrustworthy.</i>
110	dispensation	dihs-pehn- say -shuhn	n.	Exemption from a rule or usual requirement. <i>Rules on taxation may include <u>dispensation</u> for charitable organizations.</i>

111	dolostone	dawl-uh-stohn	n.	Rock consisting of dolomite, an important industrial mineral. <i>A walk over the property turned up layers of promising dolostone.</i>
112	draegerman	dray-guhr-muhn	n.	A member of a crew trained for underground rescue work. <i>The draegerman wore a breathing apparatus to go into the hazardous situation and rescue the miners.</i>
113	dulciloquy	duhl-sihl-uh-kwee	n.	A sweet or pleasing manner of speaking. <i>The dulciloquy of her heroine was a tone the novelist was trying to establish.</i>
114	dystrophic	dihs-troh-fihk dihs-traw-fihk	adj.	In ecology, referring to a lake with brown acidic water that is low in oxygen. <i>A dystrophic lake supports little life due to its acidic conditions.</i>
115	echeveria	eh-chih-veer-ee-uh	n.	A succulent plant with rosettes of fleshy colourful leaves. <i>The most important part of echeveria care is watering, as overwatering can cause rot.</i>
116	emesis	ehm-ih-sihs	n.	The action of vomiting. <i>The drug allows you to control emesis resulting from motion sickness.</i>
117	enantiomers	ih-nan-tee-oh-muhrz eh-nan-tee-oh-muhrz	n.	Each of a pair of molecules that are mirror images of each other. <i>Except for the direction of the rotation, enantiomers have identical chemical and physical properties.</i>
118	endocarditis	en-doh-kahr-deye-tihs	n.	An inflammation of the endocardium, which is a layer of tissue lining the chambers of the heart. <i>His life was in danger due to endocarditis.</i>
119	entasis	ehn-tuh-sihs	n.	A slight convex curve in the shaft of a column. <i>The temple pillars exhibit entasis, making it a good example of propositional beauty.</i>

120	entrammel	ihn- tram -uhl ehn- tram -uhl	v.	To entangle or trap. <i>Fairy-tale characters have to take care not to entrammel themselves.</i>
121	entrechat	awn -truh-shah	n.	In ballet, a jump during which the dancer repeatedly crosses the feet and beats them together. <i>The curtain rose on the ballet and the first entrechat electrified the audience.</i>
122	enzymology	ehn-zeye- mawl -uh-jee	n.	The branch of biochemistry concerned with enzymes. <i>The science midterm included questions concerning enzymology.</i>
123	epiphytic	eh-pih- fi h-tihk	adj.	Referring to plants growing on the surface of other plants. <i>An epiphytic plant is not parasitic on the supporting plant.</i>
124	epitaxy	eh -pih-taks-ee	n.	The natural or artificial growth of crystals on top of another crystal. <i>The crystal-growing kit allowed the children to experiment with epitaxy.</i>
125	equipage	ehk -wih-pihj	n.	A carriage and horses with attendants. <i>In the historical novel, the colonel's equipage was described in great detail.</i>
126	ericaceous	eh-rih- kay -shuhs	adj.	Relating to plants of the heather family. <i>The soil for ericaceous plants must be acidic for them to thrive.</i>
127	ethnocentric	ehth-noh- sehn -trihk	adj.	Evaluating other cultures according to preconceptions originating in one's own culture. <i>The editor made efforts to address and correct ethnocentric biases in the text.</i>
128	Euclidean	yoo -klih-dih-uhn	adj.	Relating to the system of geometry based on the work of Euclid, a Greek mathematician. <i>From 300 B.C. to the 19th century, Euclidean geometry was the standard.</i>

129	exacerbated	ig- zas -uhr-bayt- ihd ehk- zas -uhr-bayt- ihd	v.	To make a problem worse. <i>The exorbitant cost of land in urban areas only <u>exacerbated</u> the housing problem.</i>
130	extenuating	ihk- stehn -yoo- ayt-ing	adj.	Serving to lessen the seriousness of a situation. <i>Library staff will waive fines where there are genuine <u>extenuating</u> circumstances.</i>
131	facultative	fa -kuhl-tay-tihv	adj.	Occurring optionally in response to circumstances rather than by nature. <i>An organism that can use oxygen for energy production but can also survive without oxygen is described as a <u>facultative</u> anaerobe.</i>
132	farinaceous	fa-rih- nay -shuhs	adj.	Consisting of or containing starch. <i>Their diet was mainly <u>farinaceous</u> food such as bread, macaroni, and potatoes.</i>
133	flageolet	flaj-uh- let flaj -uh-liht flaj -uh-lay	n.	A very small woodwind instrument resembling a recorder. <i>A <u>flageolet</u> is sometimes called a tin whistle.</i>
134	flocculent [H: flocculant]	flawk -yeu-luhnt	adj.	Like tufts of wool. <i>The first snows of winter lay thick and <u>flocculent</u>.</i>
135	floriated	flaw -ree-ayt-ihd	adj.	Decorated with floral designs. <i>The wedding dress was a fantastic <u>floriated</u> tulle creation.</i>
136	foraminifera	faw-ruh- mihn -ih- fuh-ruh	n.	Tiny marine creatures that form intricately shaped shells. <i>When <u>foraminifera</u> die, thick ocean-floor sediments are formed from their shells.</i>
137	fratricidal	fra-trih- seye -duhl	adj.	Relating to or denoting conflict within a single family or organization. <i>Some companies, previously very successful, failed because of <u>fratricidal</u> disagreements.</i>
138	fricassee	frih -kuh-see frih-kuh- see	n.	A dish of stewed or fried pieces of meat served in a thick white sauce. <i>Julia Child described a <u>fricassee</u> as being halfway between a sauté and a stew.</i>

139	fulminant	fuhl -mih-nuhnt	adj.	Referring to the severe and sudden onset of a disease. <i>The range of clinical presentations can vary from asymptomatic to fulminant disease.</i>
140	fustanella	fuhs-tuh- neh -luh	n.	A traditional pleated skirt-like garment, also referred to as a kilt, worn by men in the Balkans for military and ceremonial occasions. <i>In modern times, the fustanella is a part of Balkan folk dress.</i>
141	geomorphology	jee-oh-mohr- faw -loh-jee	n.	The study of the physical features of the surface of the earth and their relation to its geological structure. <i>The researchers in the geomorphology department concentrated their studies on watersheds and in particular, fluvial processes in mountainous regions.</i>
142	giclee	zhee -klay	n.	A digital printing process in which an ink-jet printer is used to produce a high-quality art print. <i>A computer performs millions of calculations to produce a giclee print.</i>
143	glabella	gluh- beh -luh	n.	The smooth part of the forehead above and between the eyebrows. <i>When you make facial expressions, the glabella is moved by the muscles of your forehead.</i>
144	glochidium	gloh- kih -dee-um	n.	A parasitic freshwater larva which attaches itself by hooks and suckers to the fins or gills of fish. <i>Eventually, the glochidium leaves the fish, falls to the lake floor, and metamorphoses into an adult.</i>
145	grammatical	gruh- mat -ih-kuhl	adj.	Relating to grammar, the rules of a language. <i>The student received a low mark on the essay because of several grammatical errors.</i>
146	greywacke graywacke	gray -wak-uh	n.	A dark coarse-grained sandstone containing more than 15 percent clay. <i>The construction industry uses greywacke for cement manufacturing.</i>

147	grysbok	greyess -bawk grayss -bawk hrayss -bawk	n.	A small nocturnal antelope. <i>The <u>grysbok</u> spends the day in the protective cover of tall grass or shrubs.</i>
148	guipure	gih- pyoor	n.	A type of lace. <i>Because of its elegance, the bridal salon used <u>guipure</u> in its stunning creations.</i>
149	gyrfalcon	juhr -fawl-kuhn juhr -fal-kuhn	n.	The largest of the falcons. <i>The <u>gyrfalcon</u> is found in Arctic regions and has several colours, one of which is mainly white.</i>
150	habitants	a-bee- tawn hab-ih- tuhnts	n.	Early French settlers in Canada. <i>Many of the early French <u>habitants</u> established small farms.</i>
151	hackamore	hak -uh-mohr	n.	A bridle without a bit, operated by exerting pressure on a horse's nose. <i>The <u>hackamore</u> is traditionally used as the horse progresses in its training.</i>
152	hauberk	haw -buhrk	n.	A piece of armour. <i>The costume designer studied the history and development of the <u>hauberk</u> so the film's depiction would be accurate.</i>
153	hectolitre hectoliter	hehk -tuh-lee-tuhr	n.	A metric unit of capacity equal to one hundred litres. <i>The <u>hectolitre</u> is used especially for wine, beer, grain, and other agricultural produce.</i>
154	helianthemum	hee-lih- an -thih-muhm	n.	A low evergreen shrub, also called a rock rose. <i>The gardener placed a <u>helianthemum</u> in the foundation planting because it is a perennial plant.</i>
155	helichrysum	heh-lee- kreye -suhm	n.	A plant in the daisy family. <i>Some kinds of <u>helichrysum</u> are grown to be dried because they retain their shape and colour so well.</i>
156	helleborine	heh -lih-buhr- een heh -lih-buhr- eyen	n.	A mainly woodland orchid. <i>The landscape designer planted a <u>helleborine</u> because it would grow in shade.</i>

157	helminth	hehl-minth	n.	A parasitic worm. <i>A helminth can be transmitted through contaminated soil.</i>
158	hepatitis	hehp-uh- teye -tihs	n.	A disease characterized by the inflammation of the liver. <i>A common cause of hepatitis is a viral infection.</i>
159	heptarchy	hehp-tahr-kee	n.	Government by seven rulers. <i>Anglo-Saxon England was originally a heptarchy of seven smaller kingdoms.</i>
160	herbaceous	huhr- bay -shuhs	adj.	Relating to plants with non-woody stems. <i>In Canada, the above ground growth of herbaceous plants largely or totally dies back in winter.</i>
161	Hermitage [H: hermitage]	huhr-mih-tij	n.	A major art museum in St. Petersburg, Russia. <i>Catherine the Great started the collections in the Hermitage.</i>
162	Holi [H: wholly, holy, holey]	hoh-lee	n.	A Hindu spring festival. <i>A treasured keepsake was a book of poems documenting Holi celebrations.</i>
163	hydraulics	heye- draw -lihks	n.	The branch of science and technology concerned with the transport of liquids through pipes and channels. <i>The instructor explained that hydraulics work by using pressurized fluid to power an engine.</i>
164	hygge	heu-guh hyoo-guh	n.	A quality of coziness that creates a feeling of contentment. <i>Remembering the weekends spent at his Danish grandmother's house as a child brought forth a comforting sense of hygge.</i>
165	hyperemesis	heye-puhr- ehm -ih-sihs	n.	Severe and prolonged vomiting. <i>Persistent hyperemesis can lead to dehydration.</i>
166	hypermetropia	heye-puhr-mih- troh -pee-uh	n.	Long-sightedness. <i>The fashion model wore contact lenses to correct hypermetropia.</i>

167	hypochondriac	heyə-puh- kawn -dree-ak	n.	A person who is abnormally anxious about their health. <i>The hypochondriac had extreme anxiety about his health, even though diagnostic tests showed there was nothing wrong.</i>
168	iambic	eye- am -bihk	adj.	Referring to the rhythm or meter established by the words, which have a short unstressed syllable followed by a stressed syllable in a poem. <i>Words such as “attain,” “portray,” and “describe” are all examples of the iambic pattern.</i>
169	iatrogenic	eye-at-troh- jehn -ihk	adj.	Relating to illness caused by medical treatment. <i>The prescription drugs caused side effects leading to iatrogenic disease.</i>
170	iconodule	eye-kuhn-uh- dyool	n.	A person who favours the veneration of religious icons. <i>Orthodox Christians during the eighth and ninth centuries took the iconodule position.</i>
171	ignimbrite	ihg -nihm-breyet	n.	A type of volcanic rock. <i>The main component of an ignimbrite is pumice.</i>
172	iguanodon	ih- gwah -nuh-dawn	n.	A large partly-bipedal herbivorous dinosaur. <i>The iguanodon was a pack animal, often foraging for leaves and berries within the protection of 3-4 others.</i>
173	imminent [H: immanent]	im -ih-nuhnt	adj.	About to happen. <i>If the door is opened, the alarm will sound so the homeowners are alerted to any imminent danger.</i>
174	immoderate	ih- mawd -uh-ruht	adj.	Not sensible or restrained; excessive. <i>The motorist lost his driving license because of his immoderate drinking.</i>
175	imprest [H: impressed]	ihm -prehst	n.	A fund used by a business for small items of expenditure and restored to a fixed amount periodically. <i>The petty cash is kept in the office on the imprest system.</i>

176	indigeneity	ihn-dih-jih- nay -ih-tee	n.	The fact of originating or occurring naturally in a particular place. <i>The lawyer argued for the collective rights based on the indigeneity of the community.</i>
177	indiscernible	ihn-dih- suhr -nih-buhl	adj.	Impossible to see or clearly distinguish. <i>The heavy fog made driving dangerous because of indiscernible vehicles.</i>
178	indurated	ihn -dyeur-ayt-ihd	adj.	Hardened. <i>The soil was indurated from prolonged drought.</i>
179	inhibited	ihn- hih -bih-tihd	adj.	Unable to act in a relaxed and natural way because of self-consciousness or mental restraint. <i>Too much criticism can throw a person off balance and make them inhibited.</i>
180	injera	ihn- jeer -uh	n.	A white leavened Ethiopian bread, made from teff flour. <i>The restaurant had spicy lentils and warm injera on its lunchtime menu.</i>
181	insensate	ihn- sehn -sayt ihn- sehn -suht	adj.	Without physical sensation. <i>Diabetics often suffer from insensate fingers.</i>
182	integument	ihn- teh g-yeu-muhnt	n.	A tough outer protective layer, especially that of an animal or plant. <i>In seeds, the integument is a layer of tissue that develops into a seed coat.</i>
183	intemperate	ihn- tehm -puh-ruht	adj.	Having or showing a lack of self-control. <i>Aristotle's work on justice and fairness is the foundation of this quote; "For if the ruler is intemperate and unjust, how can he rule well?"</i>
184	intensification	ihn-tehn-sih-fih- kay -shuhn	n.	The action of making or becoming more concentrated. <i>The intensification of agriculture has resulted in large-scale farming but with fewer farmers.</i>

185	interferons	ihn-tuhr- feer -awns	n.	A family of proteins generated naturally by the body's immune system. <i>By altering cell membranes to deny entry or exit, interferons act against viruses in a variety of ways.</i>
186	interlude	ihn -tuhr-lood ihn -tuhr-lyood	n.	A pause between the acts of a play. <i>During the interlude, the audience reflected on what they had seen on stage in Act I.</i>
187	interpenetrate	ihn-tuhr- pehn -ih-trayt	v.	To mix or merge together. <i>Group and individual identities can interpenetrate and influence each other.</i>
188	intonation	ihn-tuh- nay -shuhn	n.	The rise and fall of the voice in speaking. <i>The rising intonation made the statement into a question.</i>
189	intricacies	ihn -trih-kuh-seez	n.	Details, especially of a complicated or perplexing subject. <i>The political scientist student was interested in the intricacies of policy.</i>
190	irretrievably	ih-rih- treev -uh-blee	adv.	In a way that cannot be undone or put right. <i>Due to COVID-19, billions of dollars were irretrievably lost from the world economy.</i>
191	jabiru	ja -bih-roo	n.	A large Central and South American stork. <i>Tramping through the marshes of Costa Rica, the ornithologists identified the jabiru by its black neck, white plumage, and black bill.</i>
192	jacquerie	jay -kuh-ree	n.	A communal uprising or revolt. <i>Surprisingly, this time the jacquerie was started and maintained by women.</i>
193	jalebi	juh- lay -bee	n.	An Indian sweet. <i>The jalebi, made of a coil of batter fried and steeped in syrup, was the favourite choice on the dessert table.</i>
194	juvenescence	joo-vuh- nehs -uhns	n.	The state or period of being young. <i>People who have reclaimed their juvenescence appear very happy.</i>

195	kayakeet	keye -uh-keet	n.	A scrambling shrub with prickly stems and bright flowers, also known as the common lantana. <i>The horticulturalist collected seeds of the kayakeet.</i>
196	Kazakhstan	ka-zuhk- stahn ka-zuhk- stan	n.	The largest country in Central Asia. <i>Russia is on the northern boundary of Kazakhstan.</i>
197	koan	koh -ahn koh -an	n.	A paradoxical anecdote or riddle without a solution. <i>The koan is used in Zen Buddhism to demonstrate the inadequacy of logical reasoning and provoke enlightenment.</i>
198	kryptonite	krihp -tuh-neyet	n.	Something that can seriously weaken or harm a particular person or thing. <i>Flip-flopping on issues can be kryptonite to political candidates.</i>
199	labyrinthitis	lab-uh-rihn- theye -tihs	n.	Inflammation of the inner ear. <i>The symptoms of labyrinthitis are dizziness, nausea, and loss of hearing.</i>
200	lacquerware	lak -uhr-wair	n.	Decorative articles, typically made of wood coated with lacquer. <i>Today, Japanese lacquerware can be found in various shapes, colours, and sizes in artisan shops.</i>
201	lactoprotein	lak-toh- proh -teen	n.	The protein component of milk. <i>The allergist tested the patient for lactoprotein intolerance.</i>
202	lahar	lah -hahr	n.	A destructive mudflow on the slopes of a volcano. <i>The dangerous lahar flowed down the river valley, far beyond the volcano.</i>
203	laminitis	lam-ih- neye -tihs	n.	Inflammation inside the hoof in horses and other animals. <i>Both the pony and the donkey suffered from extreme lameness caused by laminitis.</i>
204	leporine	leh -puh-reyen	adj.	Referring to a hare; rabbit-like. <i>During story time, the librarian read about Peter Rabbit, the rebel of the leporine world.</i>

205	leprechaun	lehp -ruh-kawn	n.	In Irish folklore, a small, mischievous sprite. <i>The folklorist loved the myths and magic of Ireland, especially the idea of the leprechaun.</i>
206	lettrine [H: latrine]	leh- treen	n.	An ornamental initial letter larger than the rest of the text it accompanies. <i>The printer enjoyed the emphasis of using a lettrine to begin each paragraph.</i>
207	libeccio	lih- bech -ee-oh lih- bet -choh	n.	A strong south-westerly wind blowing on the sea to the west of Italy. <i>The libeccio frequently raises high seas resulting in violent squalls.</i>
208	liberalize liberalise	lih b-ruhl-eyez lih -buh-ruhl-eyez	v.	To remove or loosen restrictions. <i>During the pandemic, governments decided to liberalize regulations about restaurant patios.</i>
209	lunisolar	loo-nih- soh -luhr	adj.	Relating to the combined motions or effects of the sun and moon. <i>Easter is determined on the basis of lunisolar cycles.</i>
210	lyophilize lyophilise	leye- aw -fihl-eyez	v.	To freeze-dry something. <i>The growers use a manufacturer to lyophilize their coffee beans.</i>
211	madrepore	mad-rih- pawr	n.	A stony coral. <i>The madrepore form reefs or islands in tropical locations.</i>
212	magnetosphere	mag- nee -tuhs-feer	n.	The protective magnetic shield part of earth's atmosphere. <i>About fifty years ago, a Canadian physicist showed how solar winds buffeted and shaped the earth's magnetosphere.</i>
213	maidan	meye- dahn	n.	In South Asia, an open space in or near a town, used as a parade ground or for events such as public meetings. <i>The town held cultural programmes and performances in the maidan.</i>

214	mainpernor mainpernour	mayn -puhr-nuhr	n.	A person who guarantees that another (especially a prisoner) will fulfil a legal obligation to appear in court on a specified day. <i>In the historical novel, the mainpernor was listed, along with other illustrious personages, as being a guarantor that the prisoner would be in court as requested.</i>
215	mainport maineporte	mayn -pohrt	n.	Historically, a customary payment in the form of loaves of bread. <i>The mainport was made in recompense for tithes.</i>
216	malacca [H: Malacca]	muh- lak -uh	n.	Brown cane that is used for walking sticks and umbrella handles. <i>While ash wood makes the strongest canes, the customer preferred the mottled brown of a malacca cane.</i>
217	maladaptive	mal-uh- dap -tihv	adj.	Not adjusting appropriately to the environment or situation. <i>Avoidance, withdrawal, and passive aggression are examples of maladaptive behaviours.</i>
218	malanga	muh- lan -guh	n.	A root vegetable growing in tropical regions. <i>The Caribbean farmer grew malanga for its edible pear-shaped tubers.</i>
219	manumission	man-yoo- mih -shuhn	n.	A historical term for release from slavery. <i>The history student learned that when masters freed their slaves voluntarily, it was called manumission.</i>
220	manuscripts	man -yoo-skrihpts	n.	An author's handwritten or typed text that has not yet been published. <i>There are more manuscripts available for publication than there are publishers willing to pay for them.</i>
221	megalomaniac	meh-guh-loh- may -nee-ak	n.	A person who suffers delusions of their own power or importance. <i>It was difficult for the diplomats to negotiate with the power-hungry megalomaniac.</i>

222	megatherium	meh-guh- theer -ee-uhm	n.	An extinct giant ground sloth. <i>The paleontologists found evidence that a megatherium had lived on this island.</i>
223	meliorism	mee -lee-uh-rihzm	n.	The belief that the world can be made better by human effort. <i>Faith in scientific and social meliorism sustains people's optimism.</i>
224	menehune	meh-nuh- hoo -nih	n.	In Hawaii, a member of a mythical race of small people capable of great feats of construction. <i>Hawaiian legend has it that many centuries ago a menehune lived in this forest.</i>
225	meniscus	meh- nihs -kuhs	n.	The curved upper surface of a liquid in a tube. <i>The scientist took great care reading the meniscus on a thermometer to determine the precise reading.</i>
226	merlon [H: merlin]	muhr -luhn	n.	The solid upright section of a fort. <i>The narrow opening or tiny window in a merlon is called an "embrasure slit."</i>
227	mesopodium	meh-suh- poh -dee-uhm	n.	The middle of three parts of a mollusc foot or of a leaf. <i>Another name for the mesopodium of a leaf is the petiole.</i>
228	Mesozoic	meh-suh- zoh -ihk mee-suh- zoh -ihk	n.	An era comprising the Triassic, Jurassic, and Cretaceous periods. <i>The Mesozoic era was also known as the age of dinosaurs.</i>
229	metachrosis	meht-uh- kroh -sihs	n.	The ability of chameleons and some other creatures to change colour to match their surroundings. <i>Metachrosis is common in vertebrates such as fish, amphibians, and some types of lizards.</i>
230	metrication	meh-trih- kay -shuhn	n.	The conversion to the metric system of measurement. <i>Canada's metrication began in the 1970s.</i>

231	mezzadria mezzeria	mehd-zuh- dree -uh met-suh- dree -uh	n.	A system of feudal land tenure where the farmer paid part of the farm's produce as rent. <i>Some historians think the system of mezzadria, which was gradually discontinued after WWII, is responsible for the agricultural development of central Italy.</i>
232	micrite	mihk -reyet	n.	A component of limestone. <i>As well as having an extremely fine-grained texture, micrite is dull and opaque.</i>
233	millisecond	mih -lih-seh-kuhnd	n.	One thousandth of a second. <i>The burst of light from a camera flash lasts about one millisecond.</i>
234	mirabelle [H: Mirabel]	mih -ruh-behl	n.	A sweet yellow fruit in the plum family. <i>During the family outing to a pick-your-own fruit farm, the child tried a mirabelle for the first time.</i>
235	mitraille	mee- treye	n.	Historically, a shot fired from a cannon. <i>Fragments of scrap iron were used to form the mitraille.</i>
236	monastery	mawn -uhs-teh-ree mawn -uhs-tuh-ree	n.	A building or buildings occupied by a community of monks living under religious vows. <i>Scholarship and religious devotion were practised in the monastery.</i>
237	monophyletic	mawn-oh-feye- leht -ihk	adj.	Referring to being descended from a common evolutionary ancestor. <i>Well known monophyletic groups include all fur-bearing and feathered vertebrates.</i>
238	morphotectonics	mohr-foh-tehk- tawn -ihks	n.	The branch of study concerned with large topographic features of the earth's surface, such as continents, mountain ranges and river basins. <i>Three branches of Earth Science -- geophysics, geology, and geomorphology -- provide input into morphotectonics.</i>

239	moxibustion	mawk-sih- buhs -chuhn	n.	A type of traditional Eastern medicine, involving the burning of an herb over certain parts of the body. <i>The heat therapy of moxibustion, practiced by burning moxa on or near certain joints, relieved the pain.</i>
240	mucous [H: mucus]	myoo -kuhs	adj.	Relating to, producing, covered with, or the nature of mucus. <i>Dry mouth can result from reduced mucous secretions.</i>
241	murrelet	muhr -liht	n.	A small North Pacific seabird in the auk family. <i>The marbled murrelet is a threatened seabird species.</i>
242	naiad	neye -ad	n.	In classical mythology, a water nymph. <i>A naiad was said to inhabit bodies of water such as rivers, springs, or waterfalls.</i>
243	namak	nuhm -uhk	n.	Salt. <i>In the Indian cookbook, salt was referred to as namak.</i>
244	naology	nay- awl -oh-jee	n.	The study of sacred buildings. <i>The original book on naology, written about the symbolic importance of sacred structures, had to be restored page by page because it was in such disrepair.</i>
245	nasion	nay -zee-uhn	n.	The bridge of the nose. <i>The point at the root of the nose where the frontal and two nasal bones meet is called the nasion.</i>
246	naturalistic	natch-ruh- lihs -tihk natch-uh-ruh- lihs -tihk	adj.	Closely imitating real life or nature. <i>The naturalistic rock garden had manmade stones that were realistic.</i>
247	nematology	nehm-uh- tawl -uh-jee	n.	The scientific study of nematodes, or round worms. <i>Viticultural research has broadened to include nematology because of the beneficial uses of nematodes.</i>

248	neurasthenia	nyoo-ruhs- thee -nih-uh	n.	An ill-defined medical condition characterized by fatigue, headache, and irritability. <i>Chronic fatigue syndrome was once called neurasthenia.</i>
249	nomenclature	noh -muhn-klay-chuhr noh- mehn -kluh-chur	n.	The devising or choosing of names for things, especially in a science or other discipline. <i>Nomenclature is essential as both a means of communication and an unambiguous reference system.</i>
250	nonagenarian	nawn-uh-jih- nair -ee-uhn noh-nuh-jih- nair -ee-uhn	n.	A person who is between 90 and 99 years old. <i>The nonagenarian loved spending time with her great-grandchildren.</i>
251	nullipara	nuh- lih -puh-ruh	n.	A female animal that has never given birth. <i>Studies were done on the albino rat who was also a nullipara.</i>
252	nyctinastic	nihk-tih- nas -tihk	adj.	Referring to the periodic movement of flowers or leaves caused by nightly changes in light intensity or temperature. <i>Leaves of nyctinastic plants assume a vertical or closed position in darkness and revert to a horizontal position upon illumination.</i>
253	nyctophobia	nihk-tuh- foh -bee-uh	n.	An irrational fear of darkness or night. <i>Night terrors are often the start of nyctophobia in young children.</i>
254	octroi	awk -trwah	n.	A duty levied in some countries on various goods entering a town or city. <i>The octroi was started in Italy in Roman times but has now been replaced worldwide by other taxes.</i>
255	oligotrophic	awl-ih-guh- troh -fihk awl-ih-guh- traw -fihk	adj.	Referring to a lake relatively poor in plant nutrients and containing abundant oxygen in deeper parts. <i>All the rainbow trout in the oligotrophic lake were caught and tagged for further scientific study.</i>

256	omasum	oh- may -suhm	n.	The third stomach of a ruminant. <i>Although a ruminant, a mouse deer's stomach lacks a well-developed omasum.</i>
257	ombrogenous	awm- braw -jih-nuhs	adj.	Referring to a peat or bog dependent on rain for its formation. <i>In Indonesia, the ombrogenous peatlands are mostly formed on the inward edge of mangrove clumps.</i>
258	omnipresent	awm-nih- preh -suhnt	adj.	Widespread. <i>The forest fire created an omnipresent threat of destroying everything in its path.</i>
259	onomastics	awn-uh- mas -tihks	n.	The study of proper names and their origins. <i>In our linguistics class, we learned that onomastics deals with the history of proper names.</i>
260	opportunistic	aw-puhr-tyoo- nihs -tihk	adj.	Exploiting immediate opportunities, especially regardless of planning or principle. <i>The buyout was an opportunistic one, seeking to plunder assets without safeguarding jobs.</i>
261	opuntia	oh- puhn -shee-uh aw- puhn -shee-uh	n.	A cactus, commonly called prickly pear. <i>The opuntia grows over much of the United States and can also be found in Ontario.</i>
262	organelle	ohr-guh- nehl	n.	A specialized structure that has a specific function within a living cell. <i>The scientist studied organelle movement.</i>
263	organigram organogram	awr- ga -nih-gram	n.	Another term for organization chart. <i>The organigram showed how many members were in the organization and the role of each.</i>
264	oscilloscope	uh- sihl -uh-skohp	n.	A type of electronic test instrument. <i>An oscilloscope graphically displays varying signal voltages.</i>
265	ossicle	aw -sih-kuhl	n.	A very small bone. <i>Though the term can refer to any small bone, ossicle typically refers to one of those in the middle ear.</i>

266	osteitis	aws-tee- eye -tihs	n.	Inflammation of a bone. <i>Bacterial infections are often the cause of osteitis.</i>
267	ostentatious	aws-tehn- tay -shuhs	adj.	Characterized by a pretentious or showy display. <i>The rings on display in the jewellery store window were ostentatious.</i>
268	pahoehoe	puh- hoh -ee-hoh-ee	n.	Basaltic lava forming smooth undulating masses. <i>In the Hawaiian summer, pahoehoe makes for easy hiking.</i>
269	papillae	puh- pih -lee	n.	Small rounded protuberances on a part of the body or an organ. <i>Tiny bumps called papillae give the tongue its rough texture.</i>
270	paramecium	pa-ruh- mee -see-uhm	n.	A single celled freshwater animal. <i>In the developed world, the treatment of food and water has greatly reduced the presence of paramecium.</i>
271	parapente	pa -ruh-pawnt	n.	The activity of gliding by means of an aero foil parachute launched from high ground. <i>When doing parapente, one gets a great bird's eye view.</i>
272	parvenu	pahr -vuh-noo pahr -vuh-nyoo	n.	A person of humble origin who has gained wealth, influence, or celebrity. <i>The athlete became a parvenu after winning multiple gold medals.</i>
273	passementerie	pas -mehn-tree pas -muhn-tree	n.	Decorative trimming such as tassels and fringe, used on furniture and clothing such as military uniforms. <i>The decorator was known for her use of passementerie on curtains and tie-backs.</i>
274	pelisse [H: police]	pih- leess puh- leess	n.	A woman's ankle length cloak with armholes or sleeves. <i>The heroine in the Jane Austen novel wore a pelisse.</i>
275	peramelid	peh-ruh- mee -lihd	adj.	Referring to a marsupial of a certain family. <i>The bandicoot is part of the peramelid family.</i>

276	perestroika	peh-rih- stroy -kuh	n.	In the former Soviet Union, the policy or practice of restructuring the economic and political system. <i>As the economic reforms of perestroika kicked in and markets were liberalized, massive sums of money were made.</i>
277	perilenticular	peh-rih-lehn- tihk -yeu-luhr	adj.	Surrounding the lens of the eye. <i>The eye doctor noticed an inflammation in the perilenticular region.</i>
278	periodicity	peer-ee-uh- dihs -ih-tee	n.	The tendency to recur at intervals. <i>The student asked the composer how he picked four notes that sound good no matter what order or periodicity in which they are played.</i>
279	perquisitor	puhr- kwih -zih-tuhr	n.	A person who conducts a thorough search, especially in law. <i>A perquisitor needs to be meticulous in doing intensive searches through the law books.</i>
280	philosopher	fih- law -suh-fuhr	n.	A person engaged or learned in philosophy, especially as an academic discipline. <i>Plato has a claim to be the first philosopher to establish philosophy as a subject.</i>
281	phlogiston	fluh- jihst -uhn fluh- gihst -uhn	n.	A substance supposed by 18 th century chemists to exist in anything combustible. <i>The phlogiston theory became obsolete as scientists learned more about combustion.</i>
282	photogravure	foh-toh-gra- vyyoor	n.	An image produced from a photographic negative transferred to a metal plate and etched in. <i>Traditionally, a photogravure has been a small print, 8 by 10 inches or less.</i>

283	phrontistery	frawn -tih-stuh-ree frawn -tih-stree	n.	A school or other educational institution. <i>The time spent at a phrontistery thinking, studying, or learning provides one with a solid foundation for future careers.</i>
284	phylogenesis	feye-loh- jen -nuh-sihs	n.	The evolutionary development and diversification of a species or group of organisms, or of a particular feature of an organism. <i>The study of phylogenesis has led to a better understanding of biodiversity and evolution.</i>
285	planarian	pluh- nair -ih-uhn	n.	Marine flat worm. <i>Some animals show great ability to regenerate; for example, a small fragment of a planarian can give rise to a whole animal.</i>
286	plausibilize	plaw -zih-bih-leyez	v.	To make something acceptable. <i>The management had to plausibilize planned cash flows for the shareholders.</i>
287	plebeian	plih- bee -uhn	n.	A commoner in ancient Rome. <i>The plebeian was in a subservient relationship with his patrician patron.</i>
288	plesiosaur	plee -see-uh-sawr plee -zee-uh-sawr	n.	A large fossil marine reptile of the Mesozoic era. <i>The plesiosaur was distantly related to the true dinosaurs.</i>
289	plyometrics	pleye-oh- meht -rihks	n.	A form of stretching exercise. <i>The athlete did daily plyometrics to increase strength.</i>
290	pomaceous	paw- may -shuhs	adj.	Relating to trees that have a fleshy fruit and a central core with seeds. <i>The farmer grew pomaceous fruit such as apples, pears, and grapes in the orchard.</i>
291	pommel [H: pummel]	pawm -uhl puhm -uhl	n.	A rounded knob on the end of the handle of a sword, dagger, or old-fashioned gun. <i>The archeologists were excited to find a sword pommel in the excavation.</i>

292	porraceous	puh- ray -shuhs paw- ray -shuhs	adj.	Resembling a leek, especially leek green in colour. <i>When the dog vomited a porraceous bile, the family rushed him to the vet.</i>
293	poseur	poh- zuhr	n.	A person who behaves affectedly in order to impress others. <i>The visitor was a braggart and a poseur who frequently tripped himself up by telling inconsistent versions of the same story.</i>
294	proboscidean proboscidian	praw-buh- sih -dih- uhn	n.	The mammal family of elephants and their extinct relatives. <i>There were once more than 300 species within the proboscidean family, but today only Asian and African elephants still exist.</i>
295	procrastination	proh-kras-tih- nay -shuhn	n.	The action of delaying or postponing something. <i>The upper-year mentor said the first secret to succeeding in school is to avoid procrastination.</i>
296	protasis	praw -tuh-sihs	n.	The subordinate or dependent clause, expressing the condition in a conditional sentence. <i>The protasis is frequently introduced by the word 'if.'</i>
297	proverbial	pruh- vuhr -bee- uhl	adj.	Referring to a word or phrase in a proverb or idiom. <i>Wearing a ball gown instead of jeans made her stick out like the proverbial sore thumb.</i>
298	prytany	prih -tuh-nee	n.	In ancient Greece, each of the ten divisions of the Athenian Council. <i>The prytany rotated on each tenth of the year and was responsible for the daily operation of the city-state.</i>
299	psittacine	sih -tuh-keyen sih -tuh-seyen	adj.	Relating to or denoting birds of the parrot family. <i>The breeder lost several parrots to the highly contagious psittacine beak and feather disease.</i>
300	pteridology	tair-rih- daw -luh- jee	n.	The study of ferns and related plants. <i>The avid fern collector wrote a thesis on pteridology.</i>

301	pupillary	pyoo- pih -luh-ree	adj.	Relating to the pupil of the eye. <i>The pupillary opening is within the iris of the eye.</i>
302	pyroclastic	peye-roh- klas -tihk	adj.	Referring to fragments of rocks erupted by a volcano. <i>The geologist studied pyroclastic rocks in a range of sizes, from the largest agglomerates to the finest ash.</i>
303	quintole	kwin -tohl	n.	A group of five notes of equal time value. <i>A quintole is written to be played in the time of four.</i>
304	quittance	kwih -tuhns	n.	A release or discharge from a debt or obligation. <i>The trustees negotiated with the bank to get a quittance for the money owed.</i>
305	quokka	kwawk -uh	n.	A small Australian marsupial. <i>A quokka is only about the size of a domestic cat, which is small for a wallaby.</i>
306	recreant	rehk -rih-uhnt	adj.	Cowardly. <i>The soldier was dishonorably discharged from the armed forces for recreant behavior.</i>
307	refulgent	rih- fuhl -juhnt	adj.	Shining very brightly. <i>Crystal chandeliers and gilded walls made the opera house a refulgent setting for the ball.</i>
308	reinvigorate	ree-ihn- vih -guh-rayt	v.	Give new energy or strength to. <i>The purpose of the board meeting was to discuss how to reinvigorate the organization.</i>
309	revisionism	rih- vih -zhuh-nihz-uhm	n.	The theory or practice of revising one's attitude to a previously accepted situation or point of view. <i>Historical revisionism is certainly problematic anywhere, let alone in schools.</i>

310	rheostat	ree-uh-stat	n.	An electrical instrument used to control a current by varying the resistance. <i>To get special visual effects, the technician bent neon tubing into shapes, connected electrical circuits, and inserted a rheostat.</i>
311	rhetoric	reh-tuh-rihk	n.	The art of effective or persuasive speaking or writing. <i>The purpose of rhetoric is to inform, educate, persuade, or motivate specific audiences in specific situations.</i>
312	ricin	reye-sihn rih-sihn	n.	A toxic protein obtained from the pressed seeds of the castor oil plant. <i>While castor bean plants are spectacular in the garden, the danger of a pet or child eating a bean and becoming poisoned by the ricin causes many gardeners to avoid them.</i>
313	rictus	rihk-tuhs	n.	A fixed grimace or grin. <i>The word rictus describes a horrified, involuntary grin, rather than a smile of happiness.</i>
314	righteous	reye-chuhs	adj.	Morally right or justifiable. <i>The worker's righteous indignation about being underpaid for overtime was quite understandable.</i>
315	rillettes	ree-yeht	n.	Pâté made of light meat seasoned and combined with fat. <i>The salad and rillettes made a tasty dinner.</i>
316	rodgersia	raw-juhr-zee-uh	n.	A giant perennial plant cultivated for its attractive foliage. <i>Landscapers use rodgersia to add depth to gardens.</i>
317	rubiginous	roo-bih-jih-nuhs	adj.	Rust-coloured. <i>The gallery visitor was attracted to the painting with rubiginous colouring and a mottled patina.</i>
318	saccades	sa-kahds	n.	Rapid movements of the eye between fixation points. <i>A reader's eye moves in a series of jumps and stops known as saccades.</i>

319	saccule	sak-yool	n.	A small sac, pouch, or blister. <i>The saccule, a bed of sensory cells in the inner ear, translates head movements into neural impulses for the brain to interpret.</i>
320	Samhain	sown sow-ihn sa-wihn	n.	The first day of November, celebrated by the ancient Celts to mark the beginning of winter. <i>The origins of Hallowe'en date back to the ancient Celtic festival of Samhain.</i>
321	sapodilla	sap-uh-dih-luh	n.	A large evergreen tropical American tree which has edible fruit and hard durable wood and yields chicle. <i>The fruit of the sapodilla tree can be bought in several food marts in the Toronto area.</i>
322	saxicolous	sak-sih-kuh-luhs	adj.	Living or growing among rocks. <i>Lichens that grow on rock are saxicolous.</i>
323	scrivener	skrih-vuh-nuhr skrihv-nuhr	n.	A clerk, scribe, or notary. <i>The scrivener was meticulous in his record keeping.</i>
324	seiza	say-zuh	n.	An upright kneeling position. <i>The seiza is traditionally used in Japan in meditation and as part of the preparation in martial arts.</i>
325	sematology	seh-muh-taw-luh-jee see-muh-taw-luh-jee	n.	The study of signs. <i>The researcher focused on studying verbal signs in the operation of thinking and reasoning within the broader field of sematology.</i>
326	seminary	sehm-ih-nair-ee	n.	A training college for clergy. <i>Graduates of the seminary may become clergy or may choose to stay in academics.</i>
327	sempiternal	sehm-pih-tuhr-nuhl	adj.	Eternal and unchanging. <i>When something is sempiternal, it seems like it's been around forever, like the rise and fall of the tides.</i>
328	senescence	sih-neh-suhnss	n.	The condition or process of deterioration with age. <i>Aging, or senescence, is the major cause of suffering, disease, and death in modern times.</i>

329	septicemia septicaemia	sehp-tih- see - mee-uh	n.	Blood poisoning. <i>The septicemia had developed because his rash became infected.</i>
330	serialize serialise	seer -ee-uh-leyez	v.	To publish or broadcast a story or play in regular instalments. <i>The author was excited to learn that the newspaper was going to serialize his story.</i>
331	sesquipedalian	sehs-kwih-pih- day -lih-uhn	adj.	Characterized by long words; long-winded. <i>After reading the sesquipedalian prose of textbooks, the students were glad to relax with a fun read.</i>
332	shillelagh	shih- lay -luh shih- lay -lee	n.	A thick wooden walking stick that can be used as a weapon. <i>The shillelagh is associated with Ireland and Irish folklore.</i>
333	shubunkin	shuh- buhn -kihn	n.	An ornamental goldfish with black spots, red patches, and long fins and tail. <i>A shubunkin can survive in a pond and requires less maintenance than a koi.</i>
334	sidereal	seye- deer -ee-uhl	adj.	Relating to distant stars such as constellations or fixed stars, not the sun or planets. <i>The sidereal year is 20 minutes and 23 seconds longer than the solar year.</i>
335	signatory	sihg -nuh-tuh-ree sihg -nuh-tree	n.	A person or organization that has signed an agreement. <i>An example of a signatory is the person who signed a rental agreement and is responsible for the rent.</i>
